snoezelen / multi-sensory spaces

Benefits and Applications

For Autism

The environment is often a vital part of improving comfort and part of Improving comot and participation for a person with autism. A Snoezelen room is ideal when parents or professionals need to support sensory sensitivities. The whole room can be tailered to the reads and be tailored to the needs and preferences of the individual. Meaningful sounds, lighting, videos, and products can be used to engage the interests of the user & meet specific learning goals.

Sensory Room equipment can help you to conduct assessments of the client's abilities, identify needs and to determine suitable interventions.

Activities practiced in this environment help to avoid sensory overload whilst improving skills in other areas.

Your students may have a range of unique needs that affect cognition and/or their physical abilities, which can make acquiring new skills very challenging. Sensory Rooms provide a space where interventions can be tailored to a person's needs. Purposeful goals could include object recognition, understanding cause & effect, following directions, colour recognition, or sequencing activities - all achieved through captivating equipment in a supportive space.

Strokes Dementia Brain Injury Challenging Behaviour Early Intervention

For All Ages

Sensory Rooms offer a relaxed atmosphere with soothing sounds, captivating visual effects, tactile experiences, pleasant aromas, massage, vibration and gentle movement. People can choose what area to engage with in order to meet their own sensory needs. Sensory Rooms also provide wonderful opportunities for communication, interaction and engagement. From early intervention, to dementia and elderly care, the benefits of a sensory room are for everybody.

snoezelen design service

We work with you to design your dream space

We're proud partners with Rompa®, who make some of the world's best quality Sensory Room & Snoezelen® products, giving you peace of mind that your investment will be around to enjoy for many years to come. We work with you from start to finish, assessing the space you have available, your budget, the kinds of people who will use the room, and together create a design proposal, working with you to ensure that you're happy with every little detail.

STEP I: Your planned space

We will discuss your requirements and get a good understanding of what you need. You send us photos and measurements of your allocated space. This can be in a dedicated room, or an ărea within a multi-functional room, or even a portable solution.

STEP 3: Order is placed

When you're ready to go ahead and we've received your order, the manufacture of your products can begin. We'll plan a timeframe with you and work to meet your deadlines for installation. We may conduct a site visit to finalise plans.

STEP 4: Delivery & Installation

If you do not require installation, your equipment can be couriered straight to your door with easy, detailed setup instructions. Or, our team can come and install your new Snoezelen Room for you.

Our design team will create a 3D virtual image to bring your ideas to life. When your design is ready, we'll send it to you with a quotation. No obligation!

We provide excellent training on the use and maintenance of your Snoezelen room, including MUCH more than just the technical stuff! Our trainers will help you get the most out of the room and we're always on hand to provide support and advice as you continue to enjoy your new space.

sensory rooms - bubble tubes

Bubble tubes of all sizes - and our tubes are accessible to everybody...

Midi Bubble Tube

Compact & sturdy with interactive ability. Portable version available too!

This compact tube is ideal for use at home or in smaller spaces. With 8 bright colours as standard, it can change colour automatically. It is also compatible with our range of wired & wireless colour changing controllers for interactive use - see pg 114. From large wireless switches, to rolling cubes, these are an amazing resource for colour recognition and calming play. Durable and safe, these tubes will give years of service, bringing relaxation and stimulation to any multi sensory environment. With bright LED lights, and a fill and empty from the bottom feature. Dimensions 73cmH, x 10cm diameter tube.

Portable Version

The battery powered, portable bubble tube offers freedom from plugs and sockets! Allows greater flexibility as you are not limited by the position of your wall sockets and can easily move the tube around for use by different people. Extremely safe and practical. A charge lasts +- 3 to 4 hours. Includes battery charger. Dimensions 73cmH x 10cm diameter tube. The Portable Tube can be controlled with the wired 5 Colour Controller Switch box (see pg 114) but is not compatible with wireless controllers.

Maxi Bubble Tubes

Available in different sizes to suit your space

These tubes offer a range of sizes, with 8 bright colours, and are compatible with our range of wired & wireless colour changing controllers (separate purchase) for interactive use. Tube Collars secure the top of your tube to the wall, see pg 109, and soft plinths add a comfortable place to sit and enjoy your Tube - see pg 134.

Dimensions 15cm Diameter tube Height Options: 1m, 1.5m, 1.75m or 2m

Giant Tube

Amazing feature for your sensory room

This large tube brings a real wow factor to your sensory space. It is ideal for larger rooms, as a very special feature in your multi-sensory environment. With a huge 20cm diameter, it is bold, eye catching and excellent build quality. It can cycle through 8 bright colours, and is compatible with our range of wired & wireless colour changing controllers for interactive use - see pg 114. Safe and reliable, these tubes will bring years of service to your environment and are a wonderful investment in the sensory needs of its users.

Dimensions: 20cm Diameter tube Height 2m. Please check room height if adding a soft plinth - See pg 134 for our range of designs or talk to us about a customised creation

ROMP

ROMPA

sensory rooms - bubble tubes

Giant Ball Tube

These bubble tubes are able to efficiently move a set of balls up and down in the tubes. With a special second inner tube, the balls move up the inner tube and down the outer tube. This is excellent for its all tracking. excellent for visual tracking exercises or providing a stronger focal point for the user.

They are also compatible with our wired & wireless colour changing controllers (separate purchase) for interactive use - See pg 114.

Designed with reliability and safety as a priority, these products will give years of service, years of service, bringing relaxation and stimulation to any sensory room or multi sensory environment. With LED lights, they are easier to maintain than ever before with their fill and empty from the bottom feature! feature!

Dimensions: 20cm diameter tube. Options for 1m, 1.5m, 1.75m or 2m height.

3 Column Tube

This affordable triple tube has stones at the base and creates a powerful feature. It is remote controlled with LED lights in the base and provides a wide range of colour and speed options. Includes a set of 15 fish.

Dimensions 135cm Tall

Jumbo Budget Tube

This affordable tube is almost 2m tall, with a sturdy stainless steel base. It is remote controlled with LED lights in the base and provides a wide range of colour and speed options. Includes a set of 15 fish which move around in the water, encouraging visual tracking, conversation and relaxation.

Dimensions 183 x 15cm Diameter

Bubble Wall

This bubble wall is ideal for use in Ins bubble wall is ideal for use in sensory rooms, or as an eye catching feature. It has a high-quality black metal frame and ornamental stones in the base to add to the zen feel. The remote control offers five modes of colour changes, including flashing, strobe, fading, smooth and a static single colour. Choose from 16 shades and adjust the 16 shades and adjust the brightness. Includes a high quality air pump for creating bubbles. Suitable for indoor use only.

Dimensions: 120 x 45cm

Rocket Light

The LED Rocket Light is an affordable, bright, colour-changing LED lamp. It is like a bubble tube without the water! The Rocket Light consumes very little power, is very lightweight, generates no heat and has a lifetime of tens of thousands of hours. Not intended for touching.

It includes an infrared remote control, or the colours can continuously change through 16 different shades.

Dimensions: 120 x 8.4 x 6.8cm

Budget Tube

This compact and affordable tube changes colour automatically.
Experience a kaleidoscope without needing to control anything.
Includes a set of 8 Fish which move around in the water, encouraging visual tracking, conversation and relaxation. The tube has an on and off switch on the base. Available with a black or white base

please specify.

Dimensions 105 x 20cm

sensory rooms - bubble tubes

Balls & Sea Creature Sets

Calming and encourages tracking

A set of 15 multi-colour balls, or 10 white balls, for use in our bubble tubes. The balls provide a good visual feature to encourage tracking or conversation. For use with Ball Bubble Tubes with dual columns

Sea Creature sets may be added to any tube. Colourful and appealing, they bob around at different levels of the tube. Typically includes 6 fish, a seahorse and a jellyfish but contents may vary.

Bubble Tube Treatment Fluid

Keeps tubes clear and free of algae

Add monthly to the water in your Bubble Tube to help prevent bacteria, smell and algae. Organic biocide that will not cloud or damage the acrylic tube. Simple and safe to

A single bottle can treat a 1m tube for up to 2 years. Long shelf life – lasts up to 4 years. 500ml.

Bubble Tube Collar

Secure your tube to the wall

We recommend the use of a collar for further stability of your bubble tube. The collar fits over the top of the Bubble Tube and is secured to the wall. The length of the collar can be adjusted to fit different tube positions. To be purchased separately from the bubble tube. Size and style will be selected according to the diameter of your Bubble Tube.

Rapid Water Pump

Quickly and easily add or remove water

A auick, safe and easy means of emptying and filling your bubble tube. Includes 4m of tubing and a power supply.

Base Filling Pump Option Enables your Rompa Bubble Tube to be filled from the base, rather than via the top of the tube. Includes pump, tubing and power cable to connect to the Bubble Tube's power

Safe Mirror Panels

Enhance effects in your Sensory Room with mirrors

The reflections created by mirrors can enhance the effects of your Bubble Tube, or any other light up sensory equipment. Made of safe acrylic or styrene, they are safe, plastic mirrors.

Mirrors are also an excellent method of teaching imitation and self-inspection, and with safe mirrors your learners can explore their reflections without risk.

A set of two mirrors can be placed together in a corner for extra reflective effect - one bubble tube looks like four!

Supplied with double sided adhesive tape or mirror silicone to easily attach to your wall. No screws or drilling required.

Laser cut to your required size and shape - please specify. Maximum single panel size 205 x 101cm x 3ml.

Mirror Ball & Motor

Gently moving light reflections

When a Spotlight is shone onto the Mirror Ball, reflections of light are cast all around the room creating a magical atmosphere. The mirror ball is attached to a motor (optional additional purchase) which rotates the ball.

This optional motor turns the Mirror Ball at 1RPM. It needs to be fixed to the ceiling and connected to a 240v mains supply.

Trees & Plants

Bring an element of nature into your room

With this artificial foliage, available in various designs and plants, you can bring a natural finishing touch to your sensory space. Create an outdoor look or conceal a power plug etc. Image shows Hanging Ivy 65cm.

sensory rooms - fibre optics

Portable Strands & LightSource

These portable fibre optics are powered by a low voltage rechargeable battery unit, allowing it to be safely used anywhere - whether a sensory room or smal dark den. People will love playing with the beautiful, glowing fibre optic strands which remain cool and are completely safe to touch. The fibre optic strands are 1m long. Note this unit is not compatible with our interactive controllers and users cannot control the colour themselves. Options: White Twinkle, or Colour Changing

Interactive Fibre Optic Strands

Fibre Optics provide light you can touch, hold, capture and feel! Ideal for those with sensory ROMP/ avoidance and difficulty enjoying the normal range of lighting effects. Fibre optics stimulate and hold attention. They are safe to touch, phthalate-, glass- and latex-free. Fibre Optics from ROMPA® are three-strand and so are considerably more effective than cheaper single strand options. Fibre optics are safe to handle but should never be mouthed. Requires a LightSource (available separately - see pg XX). Options: 1m x 100 strands, 1m x 150 strands, 2m x 100 strands, 2m x 150 strands, $2m \times 200$ strands, $3m \times 150$ strands, $3m \times 200$

Jumbo Fibre Optic Strands

Visually appealing as you would expect fibre optics to be and highly tactile too! These extra chunky strands are strong and easy to hold, and provide a bold visual feature. Easy to grip, with crimped ends. Phthalate-free, fibre optics are safe to handle but should never be mouthed. Requires a LightSource (available separately). Our LightSources are quiet, cool, very compact and also wirelessly interactive with our exciting range of controllers - see pg 111.

Options: 1m x 20 Strands, or 2m x 20 strands

Strands & LightSource Budget Kit

This affordable kit includes a 16W Light Source and 100 x strands each 1.5m long. It has a small remote control which changes the colours, which may not be accessible to people with fine motor difficulties.

UV Fibre Optic Strands

Sparkling, captivating, stunning and now they glow under UV light too! Fibres twinkle like your ROMP. usual fibre optics, but there's more! Double their effectiveness and use them under UV light for glow-inthe-dark strands and extra visual appeal. With crimped ends, these fibre optics are safe to handle but should never be mouthed. Requires a LightSource (available separately). Our wonderful LightSources are quiet, cool, very compact and also interactive with our controllers on pg XX. Options: 1m x 200 Strands, or 2m x 200 Strands

Fibre Optic Comb

Allows your fibre optics to be spread out on the wall or over a doorway in a beautiful waterfall effect. Holds up to 200 strands. Fibre Optics and LightSource are available separately. Length of comb: 120cm. Curved Combs for corner use also available.

sensory rooms - fibre optics

Fibre Optic Milky Way Carpet

This high quality carpet has optical fibres woven into the pile, creating a stunning, shimmering effect of continually changing colours. Lay the carpet on top of existing flooring/cushioning or attach to the wall. Available in black, cream, blue, red or green. Please specify your choice of colour when ordering. Avoid using in doorways or other areas where heavy wear is likely.

Heavy weights such as hoists and wheelchairs should not be pushed over the carpet.

Interactive LightSource

Provides light for your Fibre Optic Strands

The LightSource runs cool and is maintenance-free. It provides the light for Fibre Optic strands (separate purchase) and can be controlled by our range of Sensory Controllers such as the Microphone, Talking Cubes or 8 Colour Wire free Controller. Ideal for sensory stimulation, colour recognition and developing the understanding of cause and effect. Compact and can be wall-mounted. See pg 110 for Fibre Optic Strands and pg 114 for controllers. Size: 18 x 8 x 5cm

Leaf Chair

Easy to use swing for relaxation and positioning

The elegant leaf chair cradles the body and provides a gentle swinging motion to aid relaxation. Chair will support up to 100kg. Size: 165cmL. Requires a stand for suspension (available separately), or ceiling mounting. Chain included with chair. NOTE: All swings should only be ceiling mounted with advice from a competent building professional. building professional.

2 Port Interactive LightSource

ROMP

Two light sources for multiple elements

With all the key features of our standard LightSource, but with 2 ports so two fibre optic products (e.g. Fibre Optic Strands, Milky Way Carpets) can be operated from one LightSource and one electrical point. Especially useful in cushioned platforms where space is tight. Allows colour sequences of both products to run in tandem.

Size: 18L x 8W x 5cmH

Leaf Chair Stands

Chair & Stand Saver Pack

Includes the Leaf Chair and a T-shape floor stand, and a chain for suspension. Avoids the need for ceiling suspension which requires a suitable building structure.

Corner Stand

The corner stand saves space when suspending the Leaf Chair and also avoids the need for ceiling suspension. Size: 210H x 164cmL

sensory rooms - wall panels

Double Bubble Bonanza

Two bubble chambers for double the fun - with music, lights and more!

Combines two Snoezelen® favourites – bubble tubes and wall panels. Bubbles and colour can be individually controlled in each of the two chambers. Be amazed as the bubbles dissipate in one chamber only to burst into life in the other. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory. experience. The stunning effects stimulate, empower and engage. Perfect for cooperative play, turn-taking and follow-my-lead activities.

- With 42 unique effects

- Accessible and illuminated push button
- Great for colour recognition and matching
- Can be use with a microphone for a sound to light effect to encourage vocalisation
- Available in Blue, Cream, White or Black

Size: 115H x 67W x 10cm Floor 145 x 72.5 x 15cmH

sensory rooms - wall panels

Fireworks Extravaganza

Total wow factor with these interactive displays

Create amazing displays by selecting from a number of patterns, colours and speeds, each paired to sound effects. This panel offers a number of different effect themes for a more relaxing or varied sensory experience, for example water or carnival sounds, or exciting fireworks.

Patterns include: 5 Fireworks Effects, a spinning Catherine Wheel, Falling Stars, Strobe, Radiating, and Comet Effect.

- With 825 unique and easy to use pattern combinations.
- Offers 11 colours, 5 sound effects and 3 speed options.
- 5 stunning fireworks effects including Catherine Wheel, Falling Stars, Radiating, Comet and Strobe.
- Use passively or interactively.
- 5 Sound Effects
- Accessible and illuminated push buttons.
- Facilitates choice and control. Sockets for your own switches.
- Can be use with a microphone for a sound to light effect to encourage vocalisation.
- Sound effects and visual effects are closely linked for easier understanding.
- Available in Blue, Cream, White or Black

Size: 115H x 67W x 10cm.

Colour Catch Combo

Improve colour recognition, memory and motor skills!

The Colour Catch Combo panel fills with colour and light during use, and provides exciting visual and auditory rewards for participating. It includes four colour based games designed to improve memory, colour recognition and motor skills but most of all to be great fun! Colour matching is included - matching is an important foundation skill for language and mathematical concepts.

- For passive and interactive use
- Range of Difficulty Levels
- 4 games including Memory Match, Colour Fill and Colour Snap
- Adjustable challenge levels for a range of abilities from simple games to more complex memory tasks
- Easily-adjusted difficulty levels
- Accessible and illuminated push buttons
- Sockets for your own switches
- Can be use with a microphone for a sound to light effect to encourage vocalisation
- Touch screen tracks your score and the high score for the session
- Displays scores to help monitor progress
- Available in Blue, Cream, White or Black

Size: 115H x 67W x 10cm

sensory rooms - controllers

How to control your Sensory Room products?

There are many ways to interact with the products in your Sensory Room, including for people with mobility or physical disabilities.

Different 'controllers' can change the colours of sensory equipment 'receivers', like a Bubble Tube. You could press a coloured switch, roll a coloured dice or even use an eye tracking computer – then watch as magical responses take place around you!

Compatible Products (Receivers)

Be sure to see our Participation Box and Toy Control Boxes on pg 99 for more easy ways to provide control!

Talking Cube Controller - Large/Small

Roll or throw the cube, hear the sound, and see the colours change!

A popular item in our Sensory Room range, this wireless talking soft play cube is multi-purpose and has endless educational applications. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, in any language! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound "blue!" etc.

Ideal for developing the understanding of cause and effect, colour recognition, picture recognition & motor skills. Or put dots in the pockets for use as a dice... the possibilities are endless! Includes cube, speaker and 9V battery. This product has a zip for manufacturing purposes only.

Size: Approximately 30 x 30 x 30cm. Also available in a smaller 15 x 15 x 15cm version.

Interactive Stepping Stones

Move from step to step to create your own light show!

The steps form part of our Rompa Wifi Controller range, so they interact with all our compatible elements, such as Wall Panels, Fibre Optic strands, Bubble Tubes, Light Strips, and more! Pressure pads contained in a foam padded wooden box activate the corresponding colour in the Sensory Room elements. Helps encourage reach and movement, balance, coordination, colour recognition, attention, gwareness of cause and effect. colour recognition, attention, awareness of cause and effect, core strength, spatial awareness and gross motor skills.

Dimensions: 145 x 72.5 x 84cm max height. Weight approx. 50kg supplied as one unit.

sensory rooms - controllers

ROMP#

Microphone Controller

Sound control of your Sensory Room colours

Sound-responsive, wireless control of your Snoezelen® favourites. Great for encouraging vocalisation and for encouraging interactivity for who can't access touch-responsive switches. Compatible with ROMPA® bubble tubes, LightSources, wall panels and many more products. A universal charger is included. The samé size as a standard microphone, this could be used with a microphone stand (to be purchased separately).

8 Colour Controller - Basic

Use just one unit to provide a central controller for the colours on a Wall Panel, Bubble Tube, Fibre optic LightSource, LED Spotlight, LED Spotlight and Mood Lighting etc. It includes a charger for the integrated battery.

5 Colour Controller

Affordable wired control of Bubble Tubes

WiFi Override Transmitter

Supportive control of Sensory Room elements ROMP

An easy way to provide Infrared access to the Rompa range of interactive sensory room products. The discrete controller also allows carers to override other Wi Fi controllers. Designed for situations where a user has almost activated one of the controllers but has not exerted enough pressure on a switch button, or has missed the button, intended to ensure a reward for their efforts.

Includes the infra-red remote, controller interface and power supply.

Requires a Wi Fi Controller (e.g. Deluxe 8 Colour Wirefree Controller) and Wi Fi responsive próducts such as bubble tubes, light

sources etc. Size: 8.5L x 5.1 x 0.7cm.

8 Colour Controller - Deluxe

Sounds, timer and more for added benefit...

The same features of the Basic 8 Colour Controller, more. This feature-packed device includes fabulous additional abilities. A timer facility can adjust the length of time any colour is activated; pre-recorded multilingual words and sounds can be activated on the buttons, including colours, numbers, fun sounds and a musical scale. A USB port lets you add your own sounds

perhaps words in the user's own language, or fun noises to accompany colours. Controls on the underside include a LCD display with pre-programmed functions. You can use one unit to control the colours on a Wall Panel, Bubble Tube, Fibre optic LightSource, LED Spotlight, or Mood Lighting It includes a charger for the integrated battery.

> Dimensions: 37cm Diameter x 12cmH

Interactive Carpet Mat Set

Control colours of your bubble tubes & more!

Nine tactile floor mats allow control of our ROMPA® bubble tube, Fibre Optics and LightSource, Wall Panels and Interactive Lighting. Walk on the green mat to turn your sensory product green... step onto purple to turn it purple... and so on! The black carpet turns the colour off. It is a great way to bring gross motor stimulation to your sensory room in an engaging way. Each mat has its own texture and colour. A large surface area is perfect for those

without the finer motor skills to operate smaller switches and allows several users to play together, and take túrns. Mats can be placed on the floor or wall-mounted. Single PP3 9V battery required (to be purchased separately).

Size: Each mat 40 x 32cm

sensory rooms - wall & floor

Musical Bumpas / Vibrating Bumpas

Soft Play meets Music for a large scale xylophone on your wall...

Give your Snoezelen space the X-Factor with a musical instrument you can activate with your whole body!
Vibrant, engaging, interactive and it sounds as good as it looks. The jumbo size makes music accessible, fun and a shared experience, encouraging gross motor engagement, movement and creativity.

Available in a wide range of colours to match your theme, such as black & white, or create a rainbow using your choice of colours, or the same colour for them all-it's up to you!

Requires a sturdy wall for mounting, with overall weight approximately 50kg. The Musical Bumpas are a supplied as a set of 8, while Vibrating Bumpas (no music) are available individually so you can have as many or as few as you need.

Size: each Bumpa 15cm D x 115 or 145cm H. Overall width of the set of 8 is 240cm.

SENse Micro Interactive Floor

The ultra-portable, easy interactive floor with a range of themes

SENse Micro is one of the smallest and most affordable interactive floor displays available. SENse Micro creates colourful, engaging floor projections that respond to and interact with body movement.

Lightweight and easy to move from room to room it offers instant 'plug and play' operation with no set up required and is ideal for use in a classroom or at home. It can project onto a table allowing almost any surface, including wheelchair trays, to become fun, immersive and interactive.

It is simple to operate and easy to install. SENse Micro is supplied with clicktogether, portable, foam flooring to provide an interactive surface to be used in any room.

The SENse Micro software, combined with the high brightness projector create multiple themes and images which are combined with built-in speakers for audio effects. With thousands of pictures and hundreds of videos and sounds on-board, any image or audio file can also be added to the many effects available, enabling teachers or parents to customise programs for individual users. A range of stimulating themes including 'Splat the Balloons', 'Scatter the Flowers' and an interactive fish pond are provided.

Full training manual supplied. Dimensions: H 19cm x W 12cm x D 15cm. Maximum projection size: L 125cm x W 95cm x Diagonal 160cm. For larger projections, we also offer the SENse Mini.

sensory rooms - projectors

sensory rooms - projectors

Snoezelen LED Projector Starter Pack

Effect Wheels for Snoezelen® Projector

Easily change the appearance and theme of your room with a collection of Effect Wheels

The Effect Wheels are highly recommended for essential Snoezelen® work. The simple changing shapes of colour and gentle patterns require little intellectual concentration. This allows the individual to relax with the image without the need to predict or decipher the objects.

Used with our Snoezelen® Projector, these Effect Wheels provide an opportunity to change the appearance of the walls and ceiling of your multi-sensory environment quickly and easily. Replace the wheel in your projector to suit individual preferences, provide new visual interest, theme the room, imply temperature or a time of day/year, encourage reminiscence and conversation, and to stimulate learning in educational settings. Choose between relaxing wheels and more stimulating wheels. Wheels are easy to attach on the magnetic turning plate.

sensory rooms - lighting

Interactive Colour Strip Lights

Mesmerising colour-changing rooms...

This colour changing LED strip light is operated by remote control, and is as flexible as it is attractive. Perfect for edging, highlighting and bordering walls, stairs, ceilings, doorways or virtually wherever you want in your sensory area. Includes 5m of self-adhesive LED Light Strip, a power supply and a remote.

Compatible with our range of Sensory Room controllers, making it accessible for people with a physical impairment to change colours. Not intended to be handled - install out of reach such as behind a short pelmet at ceiling height.

Compatible with our wireless Rompa controllers or an Infrared Controller (Wifi Override) pg 115

Interactive Colour Spotlight

Accessible by switch or eye gaze too!

This colour changing LED spotlight is compact, coolrunning and maintenance-free. Choose one colour or from several colour changing programs. Can also be used interactively with a Sensory Room Controller, available separately - see pg 114.

Compatible with alternative access options which include switches and even eye tracking. Visual effect and speed can be adjusted. With angleadjustable bracket so it can be suspended. For indoor use only. Weight: 0.8kg. Size: 18 x 12 x 10.5cm

UV Light Bulbs

sensory rooms - glow furniture

A visual and tactile favourite...

Dimensions: 40cm Diameter

For a sense of fairy garden fun when indoors or out! Ideal for smaller spaces and little hands. Dimensions: 22 x 22 x 21cm

Glow Cube

Great as a work surface for CVI visual development exercises; bright backgrounds help learners focus on an object.

Dimensions: 40 x 40 x 40cm

Glow Stepping Stone Use to encourage movement play, to light up a pathway; or as a visual social behaviour cue - so many ideas! One supplied.

Dimensions: 34 x 34 x 12cm

Glow Egg

Easy to use and program, our colour changing shapes, offer excellent value and an impressive feature in your room.

Dimensions: 40 x 40 x 40cm

Glow Tree

Bumps and ridges are great to feel as the tree changes colour. Dimensions: 37 x 26 x 50cm

sensory rooms - glow furniture

Glow Table

As well as being an attractive feature, it offers a useful surface for vision activities, or a way to highlight objects on display.

Dimensions: 40cm Diameter

Glow Stones

A mini marvel. This tiny stone tower is easy to transport and use even in compact spaces. Its soft glow lasts for up to 8 hours.

> Dimensions: 27cm H x 11cm Diameter

Glow Curved Bench

Seating is important in a sensory space - a place to sit and enjoy the sights and sounds, or to connect with people in the room.

Dimensions: 102 x 40 x 40cm

Glow Cylinder

Add a sense of awe and wonder to your setting with this giant light up tube. Adults and children aft glow love its soft glow which lasts for up to 8 hours.

Dimensions: Two sizes: 100 or 70cm H

Glow Stool

For those who prefer their own space, this light up stool can offer a little oasis of tranquility.

Dimensions: 40 x 40 x 40cm

Glow Floor Square

Ideal for classroom use with transparent resources - See pg XX. Or create an interesting floor feature or a useful visual development surface. Can be walked on!

Dimensions: 60 x 60 x 13cm

Pick your favourite mood colour, or let it cycle through 16 beautiful hues. You can also create a strobe effect, or a slow fade through the colours, or a single colour can flash for a strong effect.

For sensory input, or creating a fun space to be in, our Glow Furniture is a popular choice!

sensory products - vision

UV LineLite

LineLite is flexible plastic tubing which glows in vivid colours when held under UV light. The glowing tubes are fun to touch, tie together, thread through holes, move objects along the line for tracking exercises, or generally explore. UV light to be purchased separately - see pg 119. Options: Available per metre, in White, Red, Orange, Yellow and Green. Please specify lengths required of each colour.

UV Carpet

UV Glow Star Parachute

Glow in the dark UV stars shine brightly against the navy blue nylon 'sky' background. A very calming group tool which provides visual stimulation and opportunities for social activity and interaction. Handles make the parachute easy to hold and move. Impressive 3.65m Diameter. UV light required - available separately - see pg 119.

UV Twister Rope

Flexible, textured 'rope' that glows under UV light. These ropes provide a captivating, tactile, visual experience which many adults and children find deeply calming. Phthalate-free. UV light to be purchased separately see pg 119. Options: Available per metre, in Orange, Red, Pink, Purple, Yellow, Green, White and Blue. Please specify lengths required of each colour.

UV Carpet Tiles - Set of 5

With patterns that glow under UV light, this set provides strong visual and tactile stimulation. Place on the floor, tabletop or wall-mount. Safe to handle, with bound edges for a smooth finish. Each tile measures 46 x 30cm.

LED Bubble Machine & UV Fluid

The glowing LED machine can be used in a dark room, to blow a stream of UV bubbles. Great for visual tracking, calming and fun for parties too!

sensory products - vision

Glow Construction

Build a glowing, fantasy castle and watch as the colours change

These blocks change colour when turned onto a different side. Children will love turning the blocks in their hands to see which colour they will change to next. Perfect for teaching sequencing, order, balance, counting and colours. Supplied as a set of 12 bricks containing 4 x 15cm cubes and 8 x 7.5cm cubes. Please note that this image shows two sets of bricks.

Light Panels

Increase visibility - ideal for teaching kids with CVI

Use these to highlight a visual target for CVI Stage I. Or use in photography, science and art to explore transparent objects & colour combinations. A simple button offers three brightness levels. Available in three sizes: A1, A2 and A3. Also see our Glow Cube & Glow Table for a multi-purpose alternative on pg 120-121. Our Squidgy Sparkle Gel letters, numbers and shapes are a perfect addition to use with light panels!

Colour Change Light Panels

Visual support or fun educational tool

A slim, light glowing panel which provides a wealth of learning or sensory experiences. Use it to enhance visual stimulation or visibility for visual impairment. Small, durable and portable, this light panel is rechargeable so can be used on the move, passed around the class, or even taken outside. The light can also be changed to one of 12 available colours, by simply turning the dial, which enables children to experiment with colour mixing or find one that is most comfortable for them. It also has a 30 second recording function, so that also has a 30 second recording function, so that children can talk about their activity without the pressure of having to write, or you can use the recordings to teach and play any sounds along with the colours and object

Squidgy Sparkle Gels

Tactile and visual, and fun to touch

Children love these tactile glittery sets. Ideal for use with a light panel, allowing light to shine through the brightly coloured shapes. This is useful for children with visual impairment and is a great tactile tool for kineasthetic learners as they trace their finger around the shape, building their knowledge of the formation. Made of plastic and filled with a safe liquid and glitter. Great to hide in sand, water or peg onto a string. Suitable for ages 3+. Letters sets are a great accessory to any synthetic phonics programme.

Available Sets: Validate 3ets. Letters - Lowercase Letters - Uppercase Letters & Sounds - Lowercase Numbers 0 - 9 or 0 - 20 Shapes Maths Operations Set of 10

Circle Light Panel

Great for group work & collaboration

A slim, light glowing panel that creates an illuminated surface, adding that extra engagement to your learning activities. Incorporate the panel into a wide variety of cross curricular themes. Light up maths, literacy, science or any other activities and increase enjoyment and understanding.

Use it to create a mini landscape, explore colour mixing or just see more clearly on this bright surface. Diameter 60cm

sensory products - vision

Bizi Visual/Tactile Ball

Full of surprises! Full of features! Brilliant for children with cortical visual impairment. Stimulating textures to encourage tactile exploration. Pull the ball open for cause and effect understanding. Contrasting textures, sounds (jingle and crinkle), a mirror and a pull-ring combine for a fabulous ball! Also white parts glow strongly under a UV light. Surface washable. Size: 19cm diameter.

Silver Sensory Balls

These balls are light enough for babies and toddlers to manipulate. Super shiny spheres are great for exploring and rolling, and are made from safe ABS plastic with a metal mirrored effect. Great in room with torches or other fun lighting. There are intricate patterns on the balls, adding to the tactile and visual experience.

Set includes 4 balls. Size each: 15cm.

Visual Development Soft Balls

Baby's first ball, and great for visual impairment

Each ball is different. Find out which one squeaks or which one jingles. The bold, contrasting patterns are designed to stimulate and engage even the youngest of children and people with cortical visual impairment. Great fun for patting, squashing and rolling. Set includes 4 balls. Suitable from birth. Size: 2 x 118 cm. 2 x 115 cm.

Glow Alphabet Pebbles

A set of glow in the dark pebbles engraved with lowercase alphabet letters. Ideal for taking literacy into your Dark Den or Sensory room, these tactile stones are the perfect size for little hands to hold. The pebbles glow for up to an hour. Simply leave them out in daylight for a few minutes to 'charge'. Ideal for use indoors or out. Contains 26 pebbles supplied in a drawstring bag. Size: approx. 5cm.

Silver Sensory Boulders

Construction with the WOW factor! These lovely metallic blocks have a real treasure appeal. They can be stacked, sorted and rolled. Reflective surface simulates movement for people with CVI, and can be used for a variety of learning opportunities. Made from safe plastic with a mirrored metallic effect.

Set of 12 boulders, 4 of each size:12cm, 10cm, 7cm.

Visual Development Soft Cubes

Bold images for visual attention skills

Perfect for babies and toddlers or children with visual impairment. These beautiful quality soft cubes have a different and texture on each side. With shapes, patterns, mirrors and smiling faces. Designed to meet the developmental needs of young children or those with CVI, with bright, bold, contrasting red, black and white colours. Includes shiny, reflective and soft velvety surfaces. Includes: 6 different cubes 14cm³. Wipe clean.

sensory products - tactile

Tactile Path

Flexible shape, with interlocking pieces

This curved walking path set can be arranged in many different patterns to stimulate the feet. A floor ring with a textured surface, it is great for sensory integration, balance practice and having fun.

Maximum Load 80 kg; 8 interlocking pieces. Dimensions: L: 40cm x W: 13.5cm x H: 7cm

Glow Sensory Mood Cushion

Amazing to touch, with colour changing lights

Soft lighting at its most engaging. This light-up, colour-changing cushion is as tactile as it is visual. Made from ultra-soft plush fur with LED lights inside. Íncludes a simple remote. Requires 3 AA batteries for the cushion and 1 x CE2025 lithium coin battery for the remote controller. Soothing, beautiful & soft!

Dimensions: 35 x 35 x 17cm

Tactile Multi-Purpose Cushion

Double-sided fidget tool or encourage sitting

Sit, kneel or stand on it for balance activities or lean against it for a massage. Can be useful for encouraging autistic children or those with ADHD to sit in one place.

With soft bumps on one side and small soft spikes on the other. Colours may vary. Supplied inflated with top-up air hole. Maximum weight supported: 160kg. Size: 34cm diameter.

Tacto Disks Set 1 and 2

Exploring, matching, balance and more. Great resource for children and elderly adults too...

Includes a set of large rubber disks, and a set of smaller matching texture disks. Explore with fingers or toes to match the textures of the large discs to their corresponding smaller versions hidden in the bag. Alternatively match by colour. Great in sensory circuits in schools at the start of the day to help children focus their concentration ready for learning. Useful as stepping stones for balance and coordination activities, and organising activities in a sensory circuit. Also an engaging and stimulating activity for adults with dementia or learning difficulties.

Easy to clean and use. Includes 5 large and 5 small discs, drawstring storage bag and blindfold.

Size: Large discs 26.5cm diameter x 3.5cmH Small discs 11cm diameter x 1cmH, bag 29 x 24cm

Two different sets available.

sensory products - tactile

Vibrating Massage Tube

Deep vibration for pain relief or stimulation

Massage Tubes – simple but extremely effective... a consistent best seller. An excellent flexible massager which makes vibration fun to explore. Lightweight and willch makes vibration from the explore. Lightweight and fully portable, the 115cm long massager also gives soothing and penetrating relief to aching muscles. A special Velcro® fastener is included for hands-free massaging. Operates on 2xC size batteries at 2 speeds. Now with a ribbed texture. Batteries not included. Made of synthetic rubber and PVC.

Hoberman Sphere - UV Glow

Collapse or expand for tactile stimulation

One of our favourite resources for children and adults. Gently pull the ball to make it expand. Encourages movement and fosters an understanding of size and movement. Ideal for those who find repetitive motions soothing. Can also be used as a hanging mobile. Glow in the dark material is useful for people with visual impairment and attractive in a dark sensory room. Unfolds from 24cm to an impressive 76cm.

Vibrating Plush Pillow

Cosy and comforting

These vibration pillows with a cosy pouch for hands or feet, are made from tactile fabrics and provide gentle stimulation for people with profound disabilities, dementia or chronic pain. Apply pressure to the pillow to start the vibrations and release to stop. Great for relaxation. Size: 30 x 30cm. Batteries available separately.

Available in a switch controlled version too. The independent switch control of the vibration is an excellent way to teach cause and effect. Requires 2 x D batteries and a switch(available separately). See pg 86 for our range of switches.

Tactile Wedges

Supports posture and provides a fidget too

Activates muscles that support the spine, & encourages posture alignment. The sloped shape encourages the pelvis to tilt forward. Ideal for clients who need sensory input to stay focussed. Can also be used for balance training. Supplied Inflated.

sensory products - auditory

The Skoog

The musical instrument for all abilities

The Skoog is a musical instrument for children of all ages and abilities. Expressive, tactile and intuitive, a universally accessible platform for creating and exploring musical sound.

Simply install the software on your computer, connect your Skoog to the USB port (if you want to, connect some speakers too!) and you are ready to play.

The software allows you to select instruments, beats and more. It uses state-of-the-art software to deliver the quality and expressive character of real musical instruments.

Flexible and simple to use, it offers not only the opportunity for learning, creativity and expressive musicianship, but also a fun and engaging audio resource.

The Skoog package contains one multi-touch sensor, one software CD and comes complete with ten fantastic instrument sounds.

Made of soft, squishy foam which is comfortable to squeeze, bang or tap. Dimensions 23 x 17 x 17 cm.

Skoog 2.0 for iPad

An accessible music interface for your iPad. Change the way students enjoy music!

Whatever skills, abilities or musical talents your student has, Skoog's universal design enables accessible, expressive music that opens up a world of 'music-play' when you tap, twist, or squeeze it's foamy shape. Skoog connects wirelessly to your iPad and has sensors that detect touch to make beautiful sound.

Adjustable sensitivity means that you can play Skoog intuitively with any part of your body: hands, elbows, knees or head. Includes the Skoog app (free from the App Store on iTunes) and Bluetooth connectivity; Adjustable sensitivity; Tactile orientation marker helps those with visual impairments to navigate Skoog interface; Built-in guide access mode to hide on-screen menus and enable users to focus on playing; Requires iOS 7 or later, or Mac OS X v10.6 or later. Dimensions 23 x 17 x 17 cm. Skoog and Skoog for iPad can be secured on a mounting arm!

Beamz Interactive Music System

A musical experience controlled through body movement, or eye movement!

Beamz Interactive Music System consists of a laser controller tower and software, & works by interrupting any of the 4 beams, either on the controller itself using a movement of the hands or body, or with switches, or on-screen using eye gaze or any other mouse alternative, to trigger an instrument sound being played.

Use Beamz to teach basic cause and effect, directionality, sequencing, fine and gross motor skills, common core subjects and more. Or, use it simply as a creative leisure tool for people with difficulty playing regular instruments.

The exclusive Tobii edition of the Beamz software, adapted for eye gaze & improved accessibility, may be purchased without the physical laser controller. Eye tracker and switches are available separately.

The Beamz Soft Transport Case is available separately.

sensory products - auditory

Clevy Headphones

Protection for little ears - volume limited!

Exposure to loud noise is a major cause of early hearing loss, so these are limited to 85dB, a threshold according to audiologists which is safe for medium and long term use. The headset is sturdy and can withstand heavy use by children. The twisty, extra long cable reminds people they are wearing a headset if they move away from the music or computer during use. The HearSafe ear pads are designed to drown out ambient noise and assist children to concentrate on what they are hearing, or to remove distressing background noise.

Ear Defenders

Help avoid sensory overload at work or school

Reducing sensory overload and audible distractions, increases calm, concentration and focus, which helps many children and adults with sensory processing disorders or autism spectrum disorders, to feel more able to cope with the world around them. Colour and model may vary. One size fits all. The bar across the top typically extends from 30 - 47cm, depending on the model.

Ear Filters

A discreet way to achieve noise reduction

Earplugs can be useful for children with ADHD, ADD and ASD as some individuals can find it difficult to concentrate on school.

Musical Instruments Assorted Pack

Rhythm, participation, timing and fun...

Create music with this lovely, affordable collection of instruments. The resources are useful in a sensory room for auditory stimulation, or in Therapy to assist with rhythm, patterning and auditory processing.

Ear Defenders for Little Kids

Designed to improve focus & comfort for learning

Noise can be overwhelming for some individuals which can cause loss of concentration, stress and a lack of sleep. Designed for small children's ears to encourage focus for improved learning at school and home. Sturdy, comfortable and visually appealing. Made from high quality plastic and fabric. Adjustable for continued use as the child grows. For ages 2 - 5 years.

NoiseOff Hearing Protector

Superior noise reduction & comfort

NoiseOff is lightweight and compact, with an adjustable headband. It, uses patented technology to block out distracting sounds, to help increase concentration and focus, whilst still allowing you to clearly hear speech without distortion. With a superior Noise Reduction Rating (NRR) of 26 decibels, it outperforms many similar tools.

Simple, patented and proven non-electronic design. Hygienic and impervious to mould, mildew and bacteria. Clearly hear speech and other useful sounds in noisy environments.

Lightweight, compact easily hangs around your neck or folds for storage.

Available in black, blue or green.

sensory products - auditory

Symphony 2 Interactive Orchestra

Create your own orchestra with tactile instruments

An amazing, inclusive musical game. Each soft, tactile instrument adds a different sound to the orchestra. Choose an instrument and place it onto the orchestra area to hear that instrument play, then add more or swap them to vary the music. With 15 songs and 7 instruments to choose from, the combinations are endless! Clear case with LED lights inside make it light up beautifully in a dark room / den! Requires 4 x AA batteries. Size: 25L x 21.6W x 8cmH

Musical Bells - Set of 8

Accessible musical fun - simply push bell top

A colourful set of bells to shake or press - the clever push button on top allows people with limited movement or accuracy to ring the bells. Wonderful for group music sessions. Excellent tone and tuning. Musical notes C64-C76 (C1, D2, E3, F4, G5, A6, B7, C8). The bell section is mild steel - the handle and bell push are plastic. Size: 15cmH x 9cm diameter.

Sensory Musical CD's

Snoezelen CD

Themed music for relaxation and Snoezelen sessions. Includes 'bubble tubes', 'listening' and 'light'.
Approximately 53 minutes. Ideal for creating an auditory experience in a sensory room, or setting the mood in an educational, leisure or care environment.

Aromatherapy CD

Switch on the aroma diffuser and float away to the peaceful music. A perfect companion for aromatherapy products. Ideal for creating an auditory experience in a sensory room, or setting the mood in an educational, leisure or care environment.

Guitar by the Sea CD

10 tracks that combine stunning classical guitar interpretations and relaxing sounds of the sea. Ideal for creating an auditory expereince in a sensory room, or setting the mood in an educational, leisure or care environment.

World Beat CD

From China to Ireland, from the Dijeridoo to the Steel Drum ... A journey of ethnic diversity encompassing a kaleidoscope of cultures, styles and traditions. Ideal for creating an auditory expereince in a sensory room, or setting the mood in an educational, leisure or

sensory products - aroma

Aroma Stone

Glazed ceramic for safe and easy use

Traditionally crafted in glazed ceramic, the Aroma Stone is the clean, safe and effective way of vapourising essential oils without the use of a naked flame. Put drops onto the stone and simply plug in. Will not overheat and can be easily cleaned with a damp cloth.

Allows you to blend your own mix of choice of essential oils. A brilliant way to engage olfactory sense - a strong primal sense that will resonate with many people with complex sensory needs.

Dimensions: 10cm diameter, 4cm high.

Switch Adapted Aroma Fan

Amazing for people with multi-sensory impairment

A brilliant way to engage olfactory sense and accessible for those who use a switch! Smell is a strong primal sense that will resonate with many people with complex

sensory needs. Great for teaching cause & effect to people with multiple sensory impairment. Put a few drops of essential oil onto the included felt pad, then simply press your switch to activate the fan and diffuse the aroma. Dimensions: 12W x 13.5H x 3cmD. Requires a switch, essential oil and 2 AA batteries (available separately). See switches on pg 86.

Light-up Diffuser | Speaker | Humidifier

Amazing multi-functional

This nifty little device is an aroma diffuser, with colour changing LED light built in, and is also a Bluetooth speaker and a humidifier! Meets visual, aroma and auditory needs in one unit. Mains operated. Can connect to phones / iPads 8-10m away. Automatic power off when water is finished, +-10 hours. Dimensions 14cm diameter x 12cm tall.

Aroma Mouse

One of our sensory room favourites

Diffuse on the move! Compact, light and portable. Use in the car, or where space is limited. A brilliant way to engage olfactory sense - a strong primal sense that will resonate with many people with complex sensory needs. Battery or mains operated.

Quiet yet highly effective internal fan. Safe to use - no heat or spillages. Includes 5 refill pads. Requires 4 x AA batteries and essential oils (available

separately). Size: 14L x 9W x 7cmH A pack of 10 refill pads for Aroma Mouse is also available

Aroma Diffuser Professional

Fan operated for optimal aroma enjoyment

Diffuses essential oils effectively, naturally and quietly. Fan, not flame operated, making it much safer to use in a school, sensory room or dementia care environment. Two power settings for normal and boost applications.

Uses minimal electricity and can be left unattended overnight. Includes one easy to change/top-up cartridge, with replacement cartridges available separately, ideal if you'd like to switch between different aromas. Size: 16H x 11.5cm diameter.

Essential Oils Therapeutic Blends

Starter pack of 4 therapeutic aroma mixes

Get four of our best-selling pure essential oil blends - a fabulous starter pack for every sensory room or therapy space. Includes: 1 x Sleep Easy Blend; 1 x Stress Relief Blend; 1 x Breathe Easy Blend; 1 x Spirit Lifter Blend, each supplied in 10ml amber glass bottles. Please familiarise yourself with the safe use of Essential Oils.

Aroma HuggaBuddies

Aromas

Sensoru

Tactile, visual and olfactory treasures!

Super soft and super sensory! Tactile, visual and aromatic. Cuddly and can be warmed in the microwave. Their heaviness is calming to many children. Can be 'posed' to suggest emotions. Pleasant lavender aroma. For 3 years and over. Not suitable for those who mouth.

sensory products - gross motor

when moved. Each includes a wall-mountable wooden rotator so the panel can be carefully spun. Easily detaches from the wall if required for tabletop / lap use. Encourage motor skills and hand-eye co-ordination or simply create an attractive feature in your class, or play space. Size: . 48L x 45W x 5H

Don't miss our Soft Play Section for more great Gross Motor Resources!

sensory products - gross motor

Co-Operband

Stretch, work together and have fun!

Wonderful for all ages. A great way to warm up and to make exercise fun. The fabric is soft, stretchy, wrinkly and extremely appealing. The bright, bold colours are appropriate for older users. Can be used in schools for personal social health education as pupils work cooperatively in a group. Suitable for creative play and learning about forces and rebound. Will hold six to twelve participants.

Size: 160cm diameter (unexpanded), 6cmW

Mega 4-In-A-Row

Suitable for young and old!

Big bold chunky discs and a sturdy frame. Try to get four in a row before your opponent! Frame can be dismantled for ease of storage. Great for both indoor and outdoor games. Ideal for people who are in a

Body Squeezer

OT's best friend!

Provides deep pressure for additional sensory input, which can be soothing and relaxing. Deep pressure is especially beneficial for children with ASD and ADHD, and can help reduce tactile defensiveness in those who cannot tolerate being touched (hypersensitivity or over sensitivity to touch). Moving through the rollers can help with motor planning, and can be used as part of imaginative play. Tension and pressure are easily adjusted to each user's specific needs – you can choose the appropriate level of proprioceptive feedback for your child. Masterfully crafted with a Baltic birch wood frame. Cushioned foam rollers are covered

in an easy-care polyureth'ane vinyl and they squeeze and release pressure evenly and consistently. With hand holds for portability. Colours may vary.

Size: 85L x 60W x 38cmH Weight limit: 45kg

Sit and Spin

Self-propelled vestibular stimulation

Useful for hand-eye co-ordination, gross motor skills and exercise. Provides vestibular input that some children with sensory processing problems can crave. Fun and practical, this may help children to self-regulate, manage their behaviour and improve their confidence.

(then stored inside). Maximum weiaht supported: 45kg. For 3 years and over. Minimal assembly required.

55cm diameter x30cmH

Tube Trail

Beautiful quality - a game to enjoy over & over

Place the balls in the colourful rings and watch them disappear down the tube and emerge at the bottom. Perfect for use on a floor or table. Easily portable and includes 10 balls.

The balls disappear and reappear again as they travel through the ribbed transparent tubes creating a tactile, rewarding vibration and auditory stimulation.

This repeatable activity also encourages hand/eye coordination.

Size: 75cmH; Tray 29W x 50D x 7cmH

Fun Tunnel

Easy to pack away when not in use!

Hours of fun are possible with this heavy duty tunnel. Made of high durability plastic, children can wriggle through it, roll over in it and peer through the transparent sides.

Encourages gross motor skills. Colours may vary. Size when extended: 182L x 60cm diameter.

Shake & Shine Glitter Lamp

This lamp is filled with glitter and is switched on to create a beautiful glowing light. Easy to hold and mesmerising to watch. Base may be white, black or silver.

Dimensions 15cm tall.

Spiral Liquid Timer

This is an excellent visual sensory aid that teaches colours or the concept of time. It is often used for calming, as watching the liquid gel spiral down for a set amount of time is a useful selfregulating tool. Turn the tube upside down to move the bubbles down the spiral. Height approximately 15cm.
One timer included, colour may vary.

Disco Light Bulb

Such an easy way to create cool visual effects in your room! Insert this bulb into a normal fable or ceiling lamp, and watch it automatically rotate and shine beautiful multi-colour, moving, lights around the room. Screw in bulbs. Dimensions 16.2 x 8.4 x 8.2 cm. See pa 119 for more lighting options.

Animal Dynamo Torch

These cute, wind up creature torches require no batteries, so are safe for little exploring fingers. A reassurance at night, a visual aid in a dark sensory space, an attractive visual tracking tool they can be used in so many ways. Approximately 12cm. Animal may vary.

Light-up Tambourine

Packed full of colourful LED lights that flash and fade in three modes. Lights up all around the handle for a fun visual and auditory experience. Dimensions: 22cm wide (along the handle), 13.5cm tall, 4cm deep. Batteries included (3 x AAA).

Glow Spaghetti

Extremely popular! Encourage interaction with the sense of touch using glow wavy spaghetti and appeal to visual senses with a soft glow. Expose to UV or sunlight light and then use in pitch black conditions. Colours may vary. Approximate length:

Finger Lights - Set of 12

Light up a dark space with these fun finger lights. Perfect for visual tracking exercises and encouraging attention to signing in the dark. Each finger light has an elastic band that easily keeps the lights in place. Batteries are included. You will receive an assortment of colours. Set of 12.

Spinning Ball Wand

Great to touch! Great to watch. This bright spinning ball is a favourite sensory resource and an unusual addition to any sensory collection.

Size: Approximately 10cm diameter ball.

Light-up Spikey Double Baton

The amazing light up baton has an easy to hold handle, and a squeezy, textured spiky ball at each end. Bump or touch to activate the light. A fantastic addition to any sensory environment - ideal for usé in a Dárk Den. Great for developing motor skills, visual tracking, tactile awareness and in calming therapy.

Coloured Puzzle Ball

A brilliant tactile and visual aid in one. Match the ball to the corresponding hole colour. An excellent fidget aid with an additional challenge included. Made of high quality plastic and easy to hold.

Size: 7.5cm diameter.

pick-a-mix group B

Colour Changing Blocks - Set of 4

The blocks slowly and passively change colour in sequence. Soothing and visually stimulating. A Colour Lock button allows you to keep your favourite colour on all the time instead of the phasing effect.

Height: 7.5cm. Includes 2 x AG13 batteries.

The Egg slowly and passively changes colour in sequénce. Soothing

and visually stimulating. A Colour Lóck button allows you to keep your favourite colour on all the time instead if you prefer.

Height: 9.5cm. Includes 2 x AG13 batteries.

UV Soft Scarves - Set of 3

Provides additional visual appeal to juggling, dancing, throwing and catching. Light enough for the frailest hands. Watch them float gracefully down, or feel the soft fabric on your face whilst looking at the bright colours - a fabulous sensory experience.

Colours may vary. Made of Nylon. Size: 65 x 65cm

Scented Crystal Bell Balls - Set of 6

A delight to see, hear, smell, touch, throw, bounce and squeeze. These sparkling, low bounce, hollow balls have a lively jingle bell inside. Made from fused plastic pellets, they are easy to grip. Assorted colours, comes in a set of 6.

Size: 6cm diameter

Fibre Optic Fountain

This fountain includes a colour changing base. It provides both visual and tactile sensory stimulation. Watch it move through different colours and feel its soft threads, for a relaxing dark room experience. Great for colour recognition, visual tracking development and calming.

Height 30cm.

Clatterpillar

Fun and easy way to play. Move and twist the Clatterpillar for different clicking sounds. A strong sound which is likely to hold the attention of people with profound disabilities, whilst being very easy to manipulate. Pliable and durable. Assorted colours.

Size: 26L x 8cmW

Koosh Balls - Set of 4

A classic fidget favourite. Ultra-tactile balls! Easy to catch, soft and perfect for hand-eye co-ordination activities. Stimulating, fascinating and ever-popular! Colours may vary. Latex free.

Includes 4 balls. Size: approximately 7.5cm diameter.

Scented Sound Dice

These large, multi-purpose dice can be used in so many sensory games. Multi-sensory they provide tactile, aromatic and visual stimulation and have a bell inside for auditory appeal. Colours/ aromas include green/mint, pink/strawberry, blue/aniseed and yellow/lemon. Colours and aroma may vary.

Sold as single units. Size: 15 x 15 x 15cm

Rain Tube

Turn the rain tube to make the long, gentle sounds of a rain storm. This hypnotic and enchanting sound can be used to create an atmosphere for scene-setting or simply enjoyed as beautiful music. An easy percussion instrument to use - minimal movement provides a great reward. Entirely natural, the exterior is made of cactus wood which houses the internal beads.

Size: 25cmL x 4cm diameter

pick-a-mix group C

UV Spine Balls - Set of 4

Vibrantly coloured and wonderfully textured balls that react vividly to UV light! Awesome pack of fidgets that satisfy visual and tactile sensory needs. These balls are firm and don't saueeze. but have a captivating rubbery feel, with a lovely weighted quality to them. The rubber spines are not sharp but move as they are fouched. Supplied as a set of 4 different sizes from 3cm to 7cm diameter.

UV Stretchy Bangles - Set of 5

These super stretchy bangles with soft spikes are a wonderful tool for people who are unable to hold a fidget, but would benefit from the gentle tactile stimulation these offer. Colours may vary. Set of 5.

UV Torch

A compact, pocket sized black light florescent UV Torch. It is portable and ideal for use in smaller spaces, such as a Dark Den tent, to illuminate UV reactive items. Various models and sizes, depending on availability. Also available outside of packs - see page 119.

Aroma Balls - Set of 4

Scented balls that fit comfortably in the palm of the hand. Colour and scent co-ordinated. Soft, squeezable and great to manipulate for hand exercise, to trigger memory, for matching exercises and sensory stimulation. Includes one each of orange, rose, lemon and apple scented balls. Supplied inflated. Latex-, phtalates-, leadand chrome-free. Size: 5.5cm diameter

Light Up Foam Batons - Set of 6

With a variety of colours and flashing patterns, these are soft and bendy, lightweight and flexible, and a popular favourite for dark sensory rooms and group movement activities. The soft foam prevents injury even with involuntary movement and the multi-colour, multi-sequence lights glow along the length of the baton. A simple slide On/Off switch at the base activates the lights. Requires 3 button batteries, which are replaceable. Batteries are included. 45cm long.

Collapsing Bucket & Cups

Water or sand fun!

Easy to store and travel with, this collapsible clear bucket is perfect for water & outdoor messy play. Add some food colouring for additional interest and watch the colours swirl. Learn about colour mixing or just have fun. With a set of six clear cups / sieves. 2.5L

Aroma HuggaBuddy

Super soft and super sensory! Tactile, visual and aromatic Cuddly and can be warmed in the microwave. Pleasantly heavy. Can be 'posed' to imply emotions. Pleasant lavender aroma. For 3 years and over. Not suitable for those who mouth. Size: approximately 21H x 16W x 20cmL. Hippo, Elephant, Giraffe or Penguin depending on availability. Also available outside of the packs - see pg 130.

Bendy Bells - Set of 4

For wrist and ankle wear. High auglity bells for a clear. bright resonant tone. Adjustable fastenings. Set of four. Colours may vary.

Ideal for creating an auditory experience in a sensory room. Size: 22cmL.
